The Scenic Eclipse Antarctica Difference

Seamless Sailing

With a Polar Class 6 rating, world-class technology and custom-built extended stabilisers, Scenic Eclipse navigates through the roughest of waters comfortably no matter the condition.

Spectacular Speed

Scenic Eclipse's strengthened hull and oversized zero speed stabilisers mean we are able to cross the Drake Passage into Antarctica more smoothly and quicker than other expedition ships of this size.

Easy Access

Scenic Eclipse maintains its location without dropping anchor due to its GPS Dynamic Positioning System. In addition to protecting the seabeds, this allows for quick embarking and disembarking of our Zodiacs and kayaks for exploration.

Antarctica, the difference is in the details. Innovative ship design, low guest numbers and multiple daily landings ensure we take guests further than most. Every day will offer a veritable parade of wildlife, deep exploration, and extraordinary moments.

Remote Locations

For immersive exploration, size matters in Antarctica. Scenic Eclipse has been custom designed for unrivalled access to the most remote and remarkable landing sites in this region, including full access in South Georgia.

Multiple Daily Landings

With site landings restricted to only 100 people at a time, we limit our on board guest numbers to 200. Scenic Eclipse guests enjoy multiple landings each day, and an extended time at each site.

Extraordinary Experiences

With industry leading technology and a world-class team, Scenic Eclipse takes guests into hard-to-reach destinations few will ever visit. We remain the only ship to offer guests an abundance of exploration on Zodiac, helicopter, submarine, kayak and stand-up paddle boarding.

Scenic Eclipse

Expert Discovery Team

The Scenic Eclipse Discovery Team is at the core of our Discovery and Expedition Voyages. From historians, geologists, archaeologist, and naturalist, each are leading experts in their fields.

Meet some of our Antarctica and South America Discovery Team experts

Spenser Halterman

Kayak Guide

A passion for water and ice has led me from an aerospace engineering degree to become the Discovery Team kayak guide. It isn't just about sharing powerful nature experiences in wild places. Seeing Scenic guests kayak to what feels like the edge of earth, and then getting close to incredible wildlife really is an unrivalled experience.

Many feel confident to jump straight in and paddle the icy waters here, while others might need gentle encouragement. What each individual understands by the end of their experience is that the view from the water, moving under your own power, provides a totally unique perspective of the natural world we sail in.

Jonathan Fuhrmann

Geology, Glaciology, Lecturer, Assistant Discovery Leader

I've worked on expedition cruise ships on all seven continents since 2015, my love for the Polar regions and great mountain ranges has deepened beyond belief. Wanting to know more about the earth hadn't always been my journey. I initially started an Economic degree, but soon switched focus to Geography, completing a MPhil in Glaciology at the Scott Polar Research Institute.

Today, I enjoy speaking on subjects ranging from glaciology and geology to astronomy, volcanology and photography. I hope to give Scenic guests a deeper understanding of the beautiful wild landscape, and its importance to our planet.

The Discovery Team will provide enduring insights and safely guide you every step of the way. They'll ensure you really get to the heart of the region you are exploring. From on board lectures in the state-of-the-art theatre, to guided kayak excursions and nature walks, coasting on Zodiacs in front of enormous glaciers, or stand-up paddleboards feeling the thrill of slicing your own oar blade through the pristine waters. The Discovery Team will share with you their passion for, and knowledge of, the magnificent Antarctica and South America regions.

Alice Forrest

Marine Biology, Lecturer, Assistant Discovery Leader

Watching guests fall in love with nature as they snorkel with tiger sharks, kayak with dolphins and see eye-to-eye with humpback whales is undoubtedly my favourite experience in my line of work. As a marine biologist, I've worked extensively in marine tourism, connecting people to the wonder and value of the ocean in my home country of Australia and all over the world.

The connection you witness, between humans and creatures in the natural world, is magic. There really is nothing like it. As a researcher but also a diver and free diver, I'm a firm believer in the need to communicate the science as well as the intrinsic value of the ocean and what's beneath the surface.

Dr. Terence Christian

Historian, Archaeologist, Discovery Leader

My first adventure took me across Scandinavia and through the historic Russian capitals. From that moment, I was bitten by the travel bug and have since explored the majority of the world's continents and oceans as an expedition leader, expedition guide, zodiac driver and even as a bear guard.

As an archaeologist and military historian, I examine remnants of the past. My extensive archaeological research focuses on history and archaeology of the 18th- to early 21st-century with particular interest in global conflict, historic preservation, aviation archaeology, experimental archaeology, and historic ballistics. Getting beneath the surface of a region is like stepping back in time, and truly knowing its journey to today.

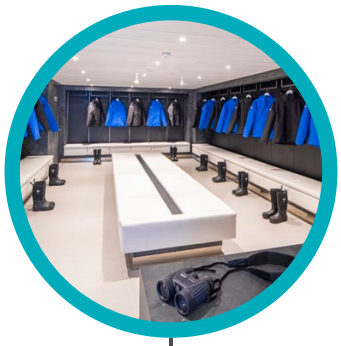
Scenic Eclipse
A Day in Antarctica

Antarctica is a land of pristine beauty, breathtaking wildlife and invaluable importance. Each day will be unique, with expedition experiences enveloped in 6-star ultra-luxury on board Scenic Eclipse.

Zodiac excursion, Cierva Cove, Antarctica

Awaken

Wake to the whisper of Scenic Eclipse, its hull gently peppered by ice floes enticing you from your cosy Scenic Slumber Bed. At the suite's floor to ceiling window, catch your breath at the stunning views, as your butler serves a coffee of your choice. Take in the early morning sunlight illuminating ice-clad mountains that soar above.



Morning

After a delicious breakfast, put on your complimentary Polar parka and proceed to the Discovery Centre where your insulated boots await. Join your group at the Marina entrance and board a Zodiac for your morning excursion. With only 200 guests in Polar regions, disembarkation goes smoothly and enables multiple landings each day.

Morning exploration

Excitement builds as you travel away from Scenic Eclipse. Its size and unique design allows you to explore places that larger vessels can't reach. What will it be today? Perhaps a landing near the largest gentoo penguin colony on the Antarctic Peninsula, where some 6,500 noisy pairs raise chicks; a cruise through a sculpture garden of exquisitely eroded icebergs, or a snow hike to an island summit for stunning views.

Late morning

No two excursions are alike. Your Discovery Leaders are alert to changing opportunities, from humpback whales suddenly breaching to leopard seals hunting just offshore – and flexible enough to get you there. Monitoring weather, sea state and ice, they will safely guide and share their insights into the region's environment, wildlife and history. Add our next level exploration on board our custom-built helicopters^ or submarine^.

Antarctica guards its secrets in an icy grip for all but five magical months, the Chilean fjords two months more, when the sea ice slowly retreats and penguins, seabirds, whales and seals make their way south for an intense breeding and feeding season.

Purpose built for Polar regions, Scenic Eclipse features a strengthened hull and Polar Class 6 rating which enables safe access to places others can't, from the first month to the last. Walk straight on to sea ice from the ship, watch penguin chicks hatch, herald the arrival of seal pups on the beaches and humpbacks offshore – every Expedition Voyage offers unique experiences. You can add the wonders of Chile, South Georgia and the Falkland Islands to your itinerary and combine these, with the 6-star ultra-luxury of Scenic Eclipse, for your ideal voyage. Here are some seasonal highlights to help you plan which voyage to choose:

SPRING/EARLY SUMMER

October – December

On the Antarctic Peninsula, Spring is a favourite time for many, especially photographers, who delight in pristine snowscapes. Fast ice clings to bays along the west coast, and one ship's barrier is another's gateway to wonder. On board Scenic Eclipse, The World's First Discovery Yachts™ your dreams become reality. Flightsee^ above magnificent Lemaire Channel, heliski^* hidden powder stashes, and explore the ice edge and the rarely seen sea floor in our custom-built submarine^.

By October in the Chilean fjords, whales migrate south and Magellanic, Humbolt and gentoo penguins begin nesting, with parents sharing incubation duties. By November in Antarctica, watch penguins begin courting, nest-building thievery and egg incubation. Mid-to-late December in Chile, South Georgia, the Falklands and Antarctica, chicks hatch to be fed by parents sharing fishing and feeding duties. In Antarctica, minkes, humpbacks and Southern Right whales arrive to feed beneath near 24-hours of daylight. The Antarctica & the Weddell Sea voyage visits the famous Snow Hill Island, where thousands of Emperor penguins nurture their young, before returning to the Antarctic Peninsula's west side.

On South Georgia, male fur and elephant seals battle to create and protect their harems. King penguins balance eggs on their feet and albatross reveal their gawky, gorgeous chicks.

SUMMER

January – Early February

Peak season on the Antarctic Peninsula see rookeries full of chicks and sunlight is at its peak. Parents dodge leopard seals and skuas scan for the unattended. Crabeater and Weddell seals lounge on ice floes, females often nursing newborn pups. Ice retreats to allow easier access to the Antarctic Circle and the Weddell Sea and opens up new vistas to enjoy from our two custom built helicopters^. As summer winds down, adolescent chicks fledge and are curious, often approaching visitors before running the leopard seal gauntlet on their first swims.

The Beyond the Antarctic Circle voyage will navigate south, further than most expedition ships go, to discover exquisite waterways like Lemaire Channel, the Gullet and Crystal Sound to celebrate crossing the Antarctic Circle (66°33'S).

On South Georgia, penguin chicks almost as big as their parents need constant feeding and are old enough to play with juvenile seals. Long days continue and temperatures rise above 5°C, the warmest of the year. On Scenic's submarine^, explore waters never dived before and be a part of the exploration under the surface. In the Falkland Islands, Magellanic penguin chicks emerge from burrows, and King penguin chicks hatch.

AUTUMN

Late February – Early March

In the Chilean fjords, penguin chicks reach peak 'cuteness'. As autumn reaches Antarctica, cormorant chicks bravely begin to fly and whales group up for their migration north to breeding grounds. Brilliant sunsets herald nightfall, patches of sea freeze, courting leopard seals captivate with eerie songs and the last gentoo penguins are chased into the Southern Ocean by winter's ever-increasing ice barrier. South Georgia is alive with millions of fur seal pups cavorting in swim schools, king penguins pack beaches while newly discovered Type D orcas and elusive sperm whales pass nearby.

Discover
The Antarctic Peninsula

Scenic Eclipse's custom-built, oversized zero speed stabilisers are 50 per cent larger than most other similar size ships, bringing greater stability regardless of sea state. Its Comfort Class 1 standard promises the lowest ship noise and vibration. The result? A smooth journey and less time to reach the Frozen Continent.

Between South America's Cape Horn and the Antarctic Peninsula is Drake Passage, the shortest sailing distance and perhaps the world's most-fickle waterway. Like its namesake (Francis Drake was a pirate to the Spanish, a hero to the English) it can be 'Drake Shake' one day, 'Drake Lake' the next.

Enjoy an enlightening presentation by the Discovery Team in the state-of-the-art theatre to excite you for what's to come or relax in your suite and watch the live streaming on your TV. Step out onto your private verandah or terrace to admire soaring albatross, the flutter of Wilson's storm petrels or blow of whales. Explore the extensive range of up to 10 dining experiences, or your butler will serve you should you wish to dine in-suite.

How different it must have been for Irish ship's master Edward Bransfield in 1820, when he became the first to see the Antarctic Peninsula. Today we follow in his wake, first to the wildlife-rich South Shetland Islands, home to 16 scientific research stations (mostly on King George Island) and mysterious live volcanic islands, then across the strait that bears Bransfield's name, to the Peninsula.

On the east side is the Weddell Sea, a wonderland of fossil fields on ice-free islands, and a series of vast tabular icebergs. We'll search for big colonies, think 16,000 breeding pairs of Adélie penguins and curious fur seals. It's here in 1915 that Shackleton and his men made an epic escape, after the sinking of his ship Endurance – one of several incredible survival stories you'll hear beautifully told by our Discovery Team historian.

C Brown Station, Antarctic Peninsula
D Zodiac excursion, Antarctic Peninsula

More than 1,500 km in length, the Antarctic Peninsula's west side offers a maze of protected channels to explore by Zodiac or our fully inclusive kayak and stand-up paddleboard program. It's a photographer's delight with soaring, steep-faced mountains topped by a glistening ice cap.

Whether it's watching a fluffy chick take its first steps, penguins diving through glassy seas, leopard seals languidly resting on ice floes, packs of crabeater seals swimming along a sapphire ice edge, or orcas rising to match the pace of your Zodiac, your Discovery Team naturalist will be there to enhance your experience by sharing their knowledge of Antarctica. We strive to give you a deeper understanding of the 'must see' sights, along with the flexibility to explore at your own pace.

With just 200 guests on our Scenic Expedition Voyages, every day on the Antarctic Peninsula offers multiple excursions, each one unique. Land on your seventh continent in the morning, visit a historic hut in the afternoon, soothe your mind, body & soul at the yoga & Pilates Studio to rejuvenate before dinner. Truly where luxury meets discovery.

The world-class design and crew of Scenic Eclipse, puts the Antarctic environment first with a GPS Dynamic Positioning system that allows us to maintain our location without dropping anchor onto sensitive seabeds. The latest emissions technology, IMO low sulphur fuel and Advanced Wastewater Treatment Systems allows for minimum impact exploration.

Scenic Eclipse's two state-of-the-art helicopters^ and custom-built submarine^, allow you to explore above, below and beyond the next horizon. Remember, wherever you touch down, or simply float quietly, take time to allow Antarctica's silence to infuse your heart.

Discover

Beyond the Antarctic Peninsula

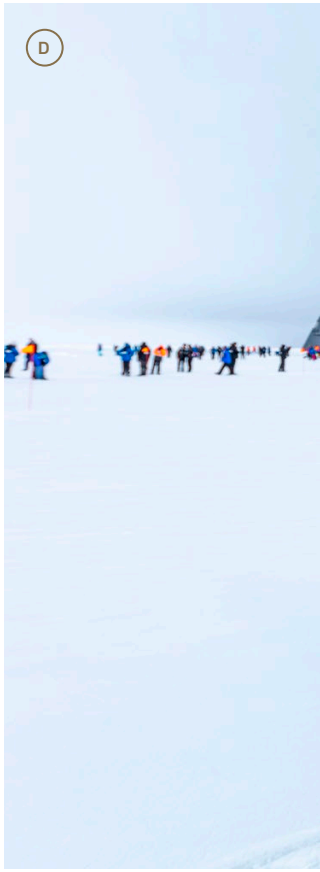
Venture east beyond the Antarctic Peninsula into the Weddell Sea, a wonderland of fossil fields on ice-free islands, in comprehensively vast tabular icebergs. Search for enormous colonies of Adélie penguins, delight in curious fur seals and be mesmerised by your Discovery Guide's tales of survival by Heroic Age explorers Shackleton and Nordenskjold.

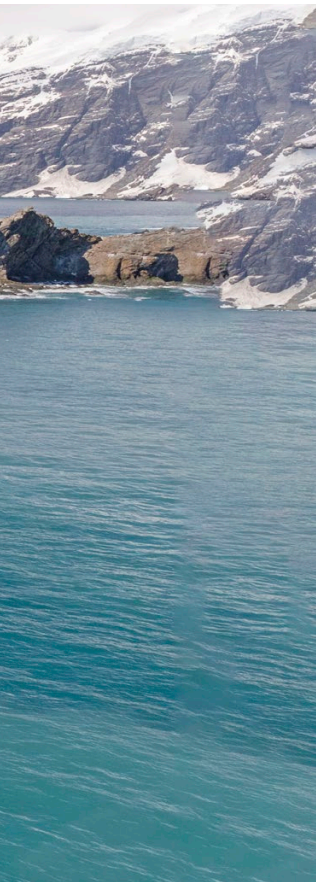
Nearly half the Weddell Sea is covered by the massive, floating, Filchner-Ronne Ice Shelf, the second largest in Antarctica. Plus smaller ice shelves along the east coast of the Antarctic Peninsula, that calve huge, flat-topped icebergs some 30 metres above sea level, 120 metres below and many kilometres long. Powered by deep currents, they slice through fields of frozen sea ice. As you sail down the west coast of the Peninsula, thread through pack ice and narrow channels where whales feed and penguins poise, to reach beyond the Antarctic Circle at latitude 66° 33' south.

It takes a unique ship to explore these waters, and Scenic Eclipse is in a class of its own. The first to be designed and built to Polar Class 6 standards, its strengthened hull, forward bow thrusters, 50 per cent larger stabilisers and electronic Azipod propulsion system enable safe navigation. The Discovery Team experts share insights into the environment and history of the region. Their expertise allows us to land in places few others have been before.

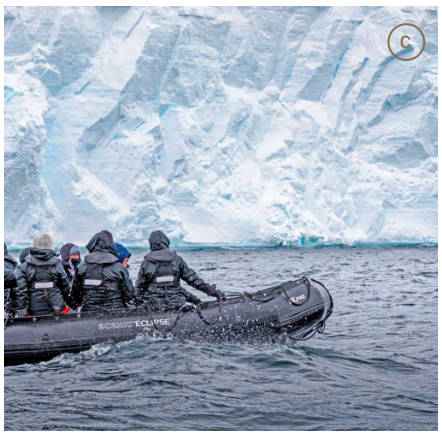
Most have heard the Shackleton story, how his ship Endurance was trapped and crushed in Weddell Sea pack ice. Learn how Shackleton and five others escaped from Elephant Island and sailed from there, to South Georgia, on an epic rescue mission.

Who knows the story of Otto Nordenskjold's, Swedish Antarctic Expedition, who was here more than a decade earlier? Your Discovery Team historian will share the gripping tale of how Nordenskjold lost his support ship Antarctica to pack ice and how this started a series of events combining the hardship, coincidence, sheer luck and leadership that brought all but one of his men back alive.





A Elephant Island
B Adélie penguins, Paulet Island
C Kayak expedition
D Explore on the ice



Whether by Zodiac or helicopter^, we aim to visit Nordenskjold's Hut on Snow Hill Island and look for emperor penguins recently departed from the northernmost colony nearby. On adjacent Seymour Island, known as the Rosetta Stone of Antarctic palaeontology, scientists have discovered fossils of giant penguins, marsupials and evidence of the mass extinction event that wiped out the dinosaurs.

We'll search for ephemeral waterfalls on Vega Island, perhaps visit an abandoned British field camp in Duse Bay. Explore the volcanic Paulet Island, home to 100,000 breeding pairs of Adélies and the remains of Larsen's Hut, built in 1903 by the survivors of Antarctica.

Go above, below and beyond the horizon. Our two helicopters^ provide new perspectives on tabular icebergs, the Antarctic Peninsula's icecap and access to remote fossil fields. Our custom-built submarine^, enables you to explore the depths of the Weddell Sea where no one has been. Who knows, there may still be relics of Nordenskjold's and Shackleton's lost ships somewhere on the sea floor.

Back on board Scenic Eclipse, visit our expansive 550m^2 Senses Spa for the pure indulgence of rejuvenating treatments, soak in our Vitality Spa or outdoor Vitality Pools, or stretch tightening muscles in our gym. Join your Discovery Leader for an illustrated recap of the day and learn what is planned for the next.

After dinner, what better way to finish the day than with a nightcap in one of our nine bars and lounges, admiring evening light playing across the Weddell Sea Ice Factory outside.

Discover
South Georgia & the Falkland Islands

Between South America and the Antarctic Peninsula lies an enchanting island chain, fragments of a land bridge that once connected the two continents called the Scotia Arc. Swept by krill-rich waters from the Weddell Sea, the islands boast a greater range of wildlife than the Galapagos and in numbers that show the abundance of the region.

Imagine seeing King penguin colonies with 150,000 individuals, or 870,000 breeding pairs of Rockhopper penguins, plus fur and elephant seals and sea lions. Marvel at the white sand beaches, soaring glaciated peaks and a thrilling history of whaling, Polar explorers, pioneers and war, all this on just two of the best-known of all Scotia Arc islands – the Falklands and South Georgia. Simply put, if you're planning a trip to Antarctica, include these destinations for the trip of a lifetime.

From Ushuaia, indulge in the ultra-luxury experiences of Scenic Eclipse for just over a day to reach the Falkland Islands. Windswept and scarcely populated, this remote archipelago is a birder's delight. Enjoy close encounters with magnificent black-browed albatross or 'mollymawks', sitting on their mud and straw nests. Delight in penguins, from ground burrowing Magellanics to flamboyant-feathered macaroni and rockhoppers, from gentle gentoos to regal kings. Five species of geese, teals and the antics of the flightless steamer duck will also captivate.

From clifftop vantages, spy bull sea lions aggressively defending their harems, moving quickly on their flippers like lumbering bears. Watch fur and elephant seals gambolling on beaches, dolphins and orcas patrolling offshore.

Spend a day exploring the very-British capital, Stanley. Choose one of our Scenic Freechoice activities – a walking tour of the town or a Battlefield Tour detailing the Falklands War. If feeling more active, join a Scenic Discovery excursion, walk a wildlife trail and to the Magellanic penguin colony at Gypsy Cove.

Whether we approach South Georgia from north or south your first view is unforgettable. It might be waters off Bird Island roiling with penguins, fur and elephant seals; or the south coast's ice-encrusted Salvesen Range soaring 2,330 metres above. Over the next days, your Discovery team will guide you to the best bays, beaches and mountainsides of this 170 km long island, showing you why this is the world's premier penguin and seabird breeding area.

A Gold Harbour, South Georgia
B Scenic Zodiac excursion, South Georgia
C Rockhopper penguins, Falkland Islands
D Whalers Church, Grytviken, South Georgia

Our Discovery Team leader plans to land as often as possible, to take extended hikes or sit quietly enjoying busy beach activities. Zodiac cruise beneath cliffs where light-mantled sooty albatross nest, walk up a boardwalk for close encounters with majestic wandering albatross and chicks. Photograph South Georgia pipits, just one of several species recovering after a successful pest eradication program.

Since 1775, when Captain Cook became the first to land on South Georgia, the island has been a base camp for sealers, whalers and Antarctic explorers. Norwegians established the island's first whaling station in Grytviken in 1904, with six others to follow. Of all the explorers, best known is Ernest Shackleton, who with five of his men, sailed a lifeboat 800 nautical miles across the Southern Ocean, then hiked across the island's unmapped interior to raise a rescue for the men he left behind on Elephant Island. Join your Discovery Team historian in the Grytviken cemetery to raise a toast at the graves of Shackleton and his right-hand man, Frank Wild, and tour the open-air whaling station, museum and gift shop.

Enjoy an all-inclusive kayaking and stand-up paddleboarding excursion with your Discovery Team guide for an excursion off the island's largest king penguin rookeries, as birds zoom underneath and all around your craft. Become one of the first people ever to explore the deep waters surrounding South Georgia in the custom-built submarine^.

And relax in truly all-inclusive 6-star luxury as you continue along the Scotia Arc through waters that are home to all the great whale species, including blue, fin and sei whales. Depending on ice, weather and sea conditions, we may stop by the South Orkney and Elephant islands, as we follow the Scotia Arc to Antarctica.

SCENIC ECLIPSE

Scenic Eclipse,
Hanusse Bay, Antarctica
S 66° 56' W 67° 29'

> During Scenic Eclipse's very first Antarctic voyage in 2019, we managed to get the ship down to the ice sheet near Cockburn Island, deep in the Weddell Sea. We were the first ship of the season to get so far south, and we even managed to get the ship 'parked' alongside the ice to allow our guests to walk on the sea ice. The absolute highlight was, of course, when several emperor penguins arrived, and proceeded to spend several hours with our guests.

Antarctica & the Weddell Sea

Emperor penguins in the Weddell Sea

In Search of the Elusive Emperor Penguin

Discover Antarctica's vast tabular icebergs, immense penguin colonies and historic tales.

Admired by all, visited by few. This limited-edition voyage will take you to the depths of the most extraordinary continent in the world. As Scenic Eclipse threads its way through the ice choked Weddell Sea, marvel at waters deemed to be the clearest on earth. Akin to the clarity of distilled water, an abundance of wildlife can be witnessed. Pods of whales breach, and pristine snow petrels soar above. At landfall, the sight of Adélie penguins, and lazing seal colonies will welcome you. Embrace the chance to see an Emperor penguin, as the Weddell Sea is the most northern place in Antarctica where they breed. Historically significant, let the Discovery Team share Antarctica's inspiring tales of polar survival, and take you to site where Earnest Shackleton's ship Endurance became trapped in ice. Every moment of this once-in-a-lifetime exploration will captivate the explorer within.

Day 09-11

South Georgia

South Georgia is undoubtedly one of the most beautiful places in the world. The island is a speck in the vast South Atlantic Ocean, one of the most remote parts of our planet. A 3,000-metre mountain range forms the spine of the long, narrow island. Between the mountains, shattered glaciers carve their way through tussock grass to the deeply indented coastline. Despite being such a small outpost in the vastness of the South Atlantic, the sea around South Georgia is one of the liveliest areas on Earth. The abundant marine life supports millions of seals, whales, penguins and seabirds. Ernest Shackleton and five of his crew sailed from Elephant Island in the James Caird for 16 days and 1,300 kilometres and finally found safety in the tiny entrance of Cave Cove. This epic story of survival began with the sinking of Shackleton's ship, the Endurance, in the Weddell Sea, six months earlier. As you explore South Georgia, you will have the opportunity to reflect on Shackleton's epic journey.
Discovery: Equipped with a fleet of custom-built Zodiacs and kayaks, your discovery excursions will take you to the places of your wildest dreams.

Discover

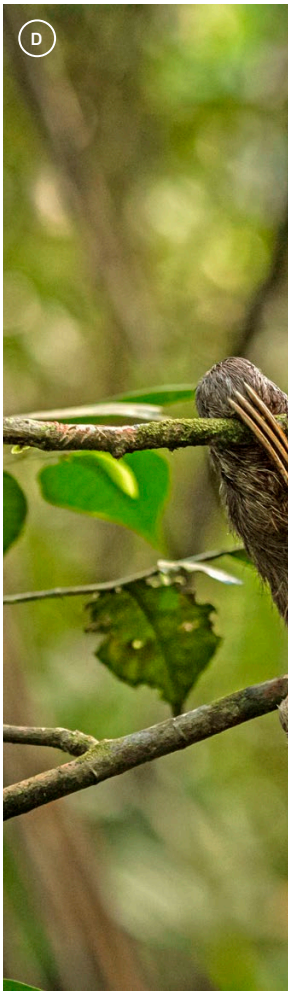
The Galápagos Islands

There are few untouched paradises left on Earth, and the astonishing Galápagos Islands is undoubtedly one of them. Alone in the Pacific Ocean, this volcanic archipelago has benefited from its isolated location over centuries of evolution, with some of the most unique and special species calling it home.

This incredible and rare ecosystem played an inestimable role in the development of Charles Darwin's ground-breaking study 'Origin of the Species' and subsequent theory of evolution in 1859. With many of the same species that inspired him still surviving on the Galápagos Islands, you'll have the chance to witness 'survival of the fittest' in the flesh. See incredible species such as blue footed boobies, Fur seals, lava lizards, flamingos, rays, albatross and the endangered Galápagos giant tortoise.

Marine Iguana

Almost 20% of the marine life in the islands is endemic to the area. This includes the Marine iguana, the only lizard in the world who enjoys water so much they've learned to swim in it! They look fierce, but are actually gentle herbivores, surviving exclusively on algae and seaweed. They are protected throughout the archipelago and are considered vulnerable to extinction.



Discover

The Amazon

A kaleidoscope of colours, diversity, extraordinary environmental and cultural significance and a true wonder of the world. Discovering the Amazon is a joy from start to finish.

Explore remote Amazonian tributaries via skiffs and kayaks, spot monkeys and other rare creatures, and let our expert naturalist guides introduce you to the wonders of the jungle. It is also the ancestral home of one million Indians and during your time with Scenic you'll have the opportunity to visit some of these villages. The sheer number and diversity of flora and fauna to be found in the world's largest tropical rainforest is quite simply astounding. From the rarest of orchids to the playful pink Amazon dolphin, it is one of the greatest thrills on Earth to witness all these extraordinary creatures and plants in their natural habitat.

Scenic Eclipse
Frequently Asked Questions

Scenic Eclipse has set the benchmark in 6-star ultra-luxury, offering guests unrivalled on board and onshore experience in the extraordinary destinations of Antarctica and South America. Here are some of the questions we get asked the most by our guests.

Why does Scenic Eclipse reduce guest numbers to 200 in Antarctica?

The International Association of Antarctic Tour Operators (IAATO) requires that only 100 guests are allowed on land, at any one time from a single vessel. We want to ensure guests experience multiple daily landings, and also get to spend extended time at each site.

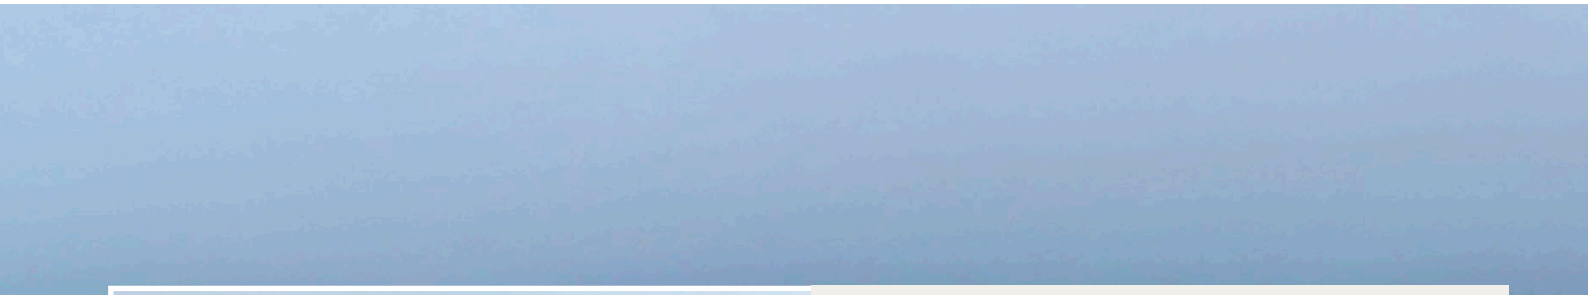
Why is Scenic Eclipse's design important when visiting Antarctica?

Scenic Eclipse's design allows an abundance of exploration opportunities in polar regions. A Polar Class 6 rating means we can take guests further into this incredible region, exploring vast ice in the Weddell Sea and south of the Antarctic circle. Taking guests to places that others will never see. With custom-built stabilisers, 50% larger than any ship of its size, our Discovery Yachts can sail comfortably through even the roughest of waters, including the infamous Drake Passage.

What does truly all-inclusive really mean?

The only time you'll need your wallet is if you want to compliment your experience with an indulgent spa treatment⁺, helicopter^ tour or submarine^ experience. All meals, unlimited beverages*, a choice of premium beverages including over 100 whiskeys, the daily re-stocking of your mini-bar, all excursions and tips are all included.

A Scenic Eclipse, Antarctica
B Shore landing, Antarctica



What exactly do the Discovery Team do?

The expert-led Discovery Team bring their unique expertise to each voyage. Geologists, historians and naturalist, every day you will spend a lot of time with the team. They will be your unrivalled exploration guides, both on board and during excursions.

For the top 10 questions our guests ask about Antarctica, visit our website: scenic.com.au/cruises/antarctica

^Flights on board two helicopters, helicopter experiences and submarine at additional cost, subject to regulatory approval, availability, weight restrictions, medical approval and weather and ice conditions. Helicopter unable to operate in South Georgia. ⁺Spa treatments at additonal cost. *All drinks on board are included except for a very small number of rare, fine and vintage wines, Champagnes and spirits.
