## Wildlife safaris by land, ATV, boat & helicopter

You'll see meerkats on this safari in Botswana around the Makgadikgadi Pans in the Kalahari Desert and you'll be able to interact with these endearing animals during a two-night stay on the edge of the desert. You'll also have the opportunity to take a walking safari with the San Bushmen who live there and ride an ATV through the salt pans. Game drives in Botswana are different too because of the wildlife found here – there are more elephants in Botswana than any other country on Earth. Endangered African wild dogs roam free, big cats thrive, hippos flood the waterways, and buffalo gather in great numbers. Game viewing in the Okavango Delta by motorboat, mokoro canoe, and helicopter, gives you a front-row seat to some of Africa's greatest wildlife spectacles.

You'll enjoy a sense of place that makes you feel at home in Africa as you experience different styles of accommodations – from The Royal Livingstone Hotel in Victoria Falls, inspired by the explorer, to safari camps in Botswana and a waterfront oasis in the heart of Cape Town.

# Best time to safari

Africa's wilderness is always calling, but each season offers a unique spectacle. Witness the Great Migration's thundering herds in East Africa or South Africa's dry-season gatherings at watering holes. From newborn animals taking their first steps to predators on the hunt, every moment brings something extraordinary – this guide will help you find the right safari and season for you.

## *Eastern Africa, dual seasons*

East Africa's tropical climate, shaped by its equatorial location and altitude, offers two rainy and two dry seasons, making it a year-round safari destination. From June to October, the Great Migration sees wildebeest and zebras crossing rivers, while December to March brings calving season, attracting big cats and heightened wildlife activity.

## *Southern Africa, contrasting seasons*

Southern Africa's subtropical climate varies widely, creating distinct safari seasons. The "green season" (October – March) brings lush landscapes, fewer crowds, and newborn wildlife, while the "dry season" (April – September) offers prime game viewing as animals gather at water sources. Beyond safaris, enjoy cultural tours, marine adventures, and year-round exploration.
