ACTION PACKED ITINERARIES & BUCKET LIST ADVENTURES

WE ARE TRUTRAVELS

We don't do good tours. We don't visit good places. We don't do good times. Our tour guides aren't good at their jobs. People who've been on our trips never say, "Well, that was a good experience." Other travel companies do 'good'. You see, for us, 'good' is about as good as average. And one thing we don't do is average.

We're the travel company with the blow-your-socks-off tours, the OMG-this-place-is-incredible destinations, the I-can't-believe-that-happened experiences, we want to spread good vibes & help make the world a better place attitude. We do the things that stay with you forever. We run the kind of trips that you'd never describe as 'good'. Because you didn't come here looking for 'good'. You came here looking for 'life-changing'.

Ain't that the Tru-th.

OUR MISSION

We all have something in common - the burning desire to see the world and have the time of our lives doing it! That's where we come in. We maximise your adventure and minimise hassle. We give you the chance to see new places, meet new people and experience new cultures.

We're all about inclusions. We take away all the stress and worry of budgeting so you can focus on living the dream and making lasting memories. Our balance of hotspots, unique experiences, and bucket list adventures means you make the most of every single day. Why wouldn't you? If you want it all, you can have it all. Culture, adventure, relaxation and partying making it the most mind-blowingly awesome experience that won't cost the earth.

WHY TRU?

TRUEXCLUSIVES

We don't want to say our competitors all offer the same packages. You know what, scrap that. They all offer the same packages. Our tours, on the other hand, give you a selection of unique experiences that you won't find anywhere else. Experiences that we have created to make sure your trip is one of a kind.

TRUNINJAS

We refer to our guides as Travel Ninjas because they're badass mo fo's! They'll move heaven and earth to make sure every experience is at least 136x better than you expected. It's like travelling with a bunch of your mates, but one of them just happens to know where they're going. They're a great storyteller, party starter and an all-round legend! Don't believe us? Check out our 5* reviews.

TRUFAM

It's never over. You'll forever be part of our TruFam - a group of fun-loving legends from around the world who share our love of travel, culture, and very strange jokes. That's right, book with us and we've forever got your back, and yes, we expect invites to weddings, birthdays and bar mitzvahs.

TRUCOLOURS

This might sound a tad soppy, but, when done right, travel makes the world a better place. Lot's of companies say they care but do they actually? It's not a PR stunt for us, we give a shit big time but feel like fun does not need to be compromised by doing good. We do both! It's about giving back, reducing our footprint, and spreading love and wealth to the communities we visit whilst having the time of our lives!. We show our TruColours in everything we do.

TRUFLEXIBILITY

Here at Tru, we're all about the flexibility. And no, that's not because each of our Travel Ninjas can effortlessly pull off the lotus position. It's because we offer low deposits, easy-to-manage payment plans, and flexible date changes. That gives you more time to sit, cross-legged, calendar in hand, counting the days until your trip. Y'know, important stuff.

TRUINCLUSIONS

We believe that when you book a trip, you shouldn't then have to busk outside the local supermarket just to afford the activities that were listed in small print as 'not part of the package'. We include bucket list activities, all accommodation, and transport, so the only time you'll get stung on our tours is if you accidentally sit on a jellyfish.

TRUSTORIES

Travel impacts the lives of everyone it touches. And each of those people have incredible stories to tell. That's why, when people book with us, they're not just arranging a trip to a foreign land. They directly impact the lives and stories of our Tru Family whilst, and having an amazing time, creating their own TruStory. What will yours be?

TRUFRIENDS

Now, we're not calling you Billy No Mates, but you'll make friends for life when you travel with us. If you are, in fact, a Billy No Mates, book with us and you'll soon be Billy Lots of Mates. Jokes aside, the bonds we form on our trips is at the core of what we do here at Tru. Because we believe that Travel isn't just about the places you go, it's about the people you meet.

FIND YOUR TRAVEL STYLE

There's no one-size-fits-all when it comes to travel. We believe the world is your playground, and we've got you covered! With not just one, but four distinct travel styles, we've mastered the art of delivering that perfect trip that leaves you screaming with joy, flooding your social media, and reminiscing for years to come. Our tours are packed with life-changing moments, epic bucket-list activities, and exclusive inclusions. No matter what kind of traveller you are, we have the missing piece to your travel puzzle.

IMPACT

OUR

AT TRUTRAVELS WE BELIEVE THE TRAVEL INDUSTRY HAS THE POTENTIAL TO CHANGE THE WORLD FOR THE BETTER.

Our vision is to unite people, companies and charities from all walks of life, with the common goal of reducing the current global equality divide. We feel, no matter where you are from, everyone has a social responsibility to help make the world a better place. Because of this, we source suppliers from local businesses and continue to employ as many local staff as possible to ensure the money goes back into local communities we have the pleasure of travelling in.

TREES PLANTED

charity: water

As our main goal is to change the lives of as many people as we possibly can through travel we decided it was time to take it one step further; that's when we came across Charity Water.

Charity Water helps to provide clean drinking water to communities in need all around the world. Currently, 771 million people lack access to clean water, impacting their health and quality of life. By allocating 1% of our revenue to water projects around the world, like handpumps in Mozambique, we're creating lasting change, empowering communities and providing a long-term solution. This means that every booking with TruTravels Tru-ly does make a difference, from improving health, food access, local economies, and education for those who really need it.

As much as we love making a positive change through travel we believe it is just as important to look after the world we live in. Becoming more eco friendly has been a huge focus for us and that's why in 2021, we partnered with Ecologi.

Ecologi is the forefront in climate change meaning you can become climate positive & carbon neutral with just the click of a button. Wild right?! The best part, they show you exactly what you're doing to make that change. Down to the species of tree they're planting and the exact location in the world they're planting it, so we can really, Tru-ly see the difference ourselves and our TruTravellers are making.

We've partnered with the 'Bali Street Mums Project', a charity that supports women and their families to a better life. Not only do they aid mothers and their children who have been begging on the streets and give them refuge at a safe house -they teach the mothers skills so that they can earn a living and not take their children back to the streets to beg. 100% of the money raised during our fundraisers goes back to mothers and their children, and their workshops which are run by the families they've helped. They also educate the children, so they grow up with the means to break the cycle. By saving families once, they're empowered to sustain themselves for generations. We work with Bali street mums for fundraiser events, charitable donations but also bring selected groups to purchase small items and souvenirs made by the mums. An incredible charity Tru-ly close to our heart.

PEOPLE & PLANET PROMISE

After 10 years of delivering epic life-changing experiences to our TruTravellers, we want to imbed doing good into everything we do. That's why we introduced the 'TruTravels People & Planet Promise'. We're dedicated to taking on the responsibility of being the positive change we want to see in the world. We have set ourselves 3 main goals that we want to make openly available to show our commitment.

We are adopting a multi-stakeholder approach, to help save the planet and improve the lives of everyone, from customers & employees, to suppliers & local communities. Our aim is to be transparent on everything we have achieved so far across the whole company so that as we grow, the positive impact we have on the world will increase exponentially.

- ◆ We will plant trees to offset all internal TruTravels flights and give customers the opportunity to do the same when booking
- ◆ Give 100k+ TruTravellers the time of their lives whilst opening their eyes to new cultures and peoples
- ◆ All tours must score 75+ on Ripple Score to ensure that at least 75% of our cost of goods sold stays in the communities in which we travel
- ◆ We will continue to implement on tour and off tour fundraising initiatives to raise money for people and planet (My Own Room Auction, t-shirt sales, events, challenges etc.)

OUR GOALS

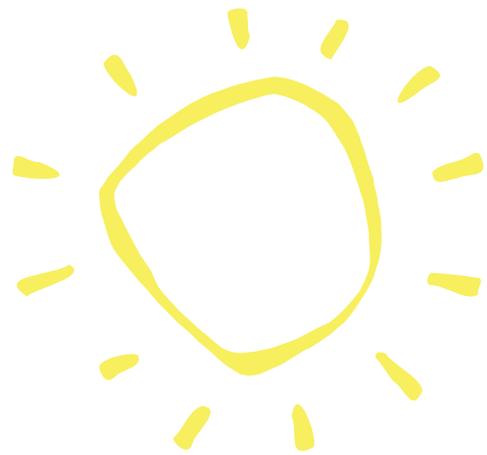

01 CHANGE 250K LIVES

Our first main goal is to positively change the lives of 250,000 through travel, including staff, customers, suppliers and communities. We aim to do this by employing local tour guides in the countries we travel to and ensuring they are paid above the national living wage.

02 GO CARBON NEGATIVE

Our second goal is to ensure that ALL operations are carbon negative from 2023 and to plant one million trees by 2030 to reduce our environmental impact in relation to our business growth. This will be achieved by working with all of our suppliers to reduce their waste and carbon footprint. We will plant trees through Ecologi for every customer that travels with us, as well as offsetting the carbon emissions our customers produce on our tours, staff internal flights and operational carbon footprint.

03 RAISE ONE MILLION FOR OUR COMMUNITIES

Our final goal is to generate one million for our People and Planet to help reduce inequality where most needed. Some of our most recent work includes supporting the Bali Street mums project. An incredible organisation that supports local mums and their kids so they have all the necessities they need and no longer need to beg on the streets.

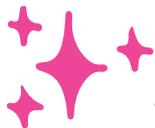

We are also working on building an education centre in the Philippines and so much more all across the world.

We do what we do for the good of our customers, staff, partners and the communities where we work. We want to make the world a better place, whether that's by spreading good vibes & making people happy or by helping development in areas that need it. We believe travel should be used as a force for good.
